

Enabling Email Notifications on Libby

1. Go to **libbyapp.com** - instead of the normal *Libby* website.
2. Click on the 3-line hamburger menu, which is at the bottom of the screen, in the middle. (See photo below)

3. Click on **Manage Notifications**
4. At the bottom of the page, click on **Fix This?** within the paragraph saying that an email address must be specified. (See photo below)

5. Enter the email you prefer for your *Libby* notifications.

In the **Manage Notifications** menu, you can also adjust which events will lead to an email notice:

Notify Me: Title Alerts you when a previously unavailable title is added at one of your libraries.	<input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Notify Me: Author Appears when another title by the same author is added at any of your libraries.	<input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>
Notify Me: Series Appears when another title in the same series is added at any of your libraries.	<input type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/>

RED = no notifications at all

YELLOW = notification in-app only

GREEN = email notification
