

Moving Libby eBooks to a Different Kindle

Before Beginning: Have the login credentials you will need on-hand.

- The email and password used to sign into the Amazon account that your Kindle is registered to.

Part 1: Moving an eBook to the correct Kindle device

On the Libby mobile app

1. On the *Libby* app, and go to your current checkouts.
2. Find the eBook you want to move, then tap on **Read With Kindle**
3. After Amazon opens, scroll down until you see the *About library loans* section, then tap on **Manage Your Content and Devices**.
4. Find the eBook you want to move, then tap on **Deliver or Remove from Device**
5. Add a checkmark next to any Kindle location you want the eBook to appear on, and remove checkmarks from any Kindle locations you do NOT want the eBook to appear on.
6. Tap on **Make Changes** when finished.

On a computer

1. Go to the *Amazon* website and sign into your account.
2. On the top-right, hover your mouse over *Account & Lists* to expand the menu, then click on **Account**.
3. Scroll down until you see the *Digital content and devices* section, then click on **Manage content and devices**
4. Click on **Books**
5. Find the eBook you want to move, then click on **Deliver or Remove from Device**
6. Add a checkmark next to any Kindle location you want the eBook to appear on, and remove checkmarks from any Kindle location that you do NOT want the eBook to appear on.
7. Tap on **Make Changes** when finished.

Part 2: Refresh your Kindle and begin reading

1. Start up your Kindle, and make sure it is connected to wifi.
2. On the top of the Kindle screen, tap and swipe down to open the Kindle's settings. ()
3. Tap on **Sync** 
4. Tap the upwards arrow to close the settings menu. ()
