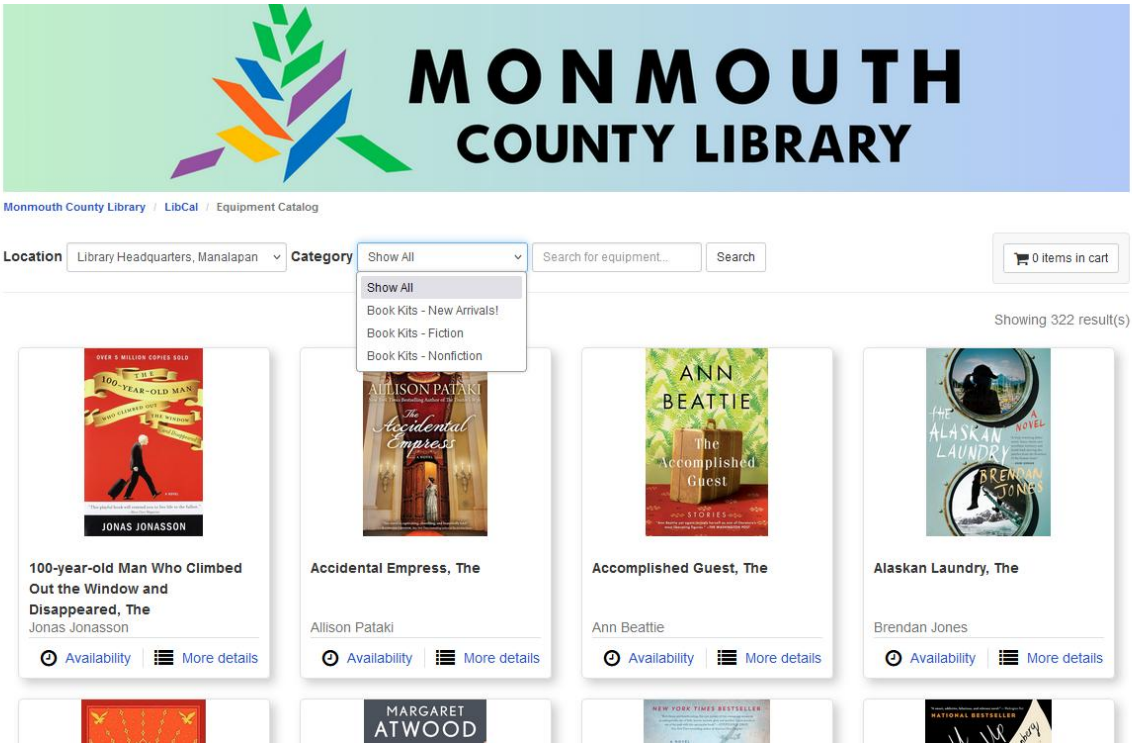
Welcome to LibCal, our new online book club catalog!

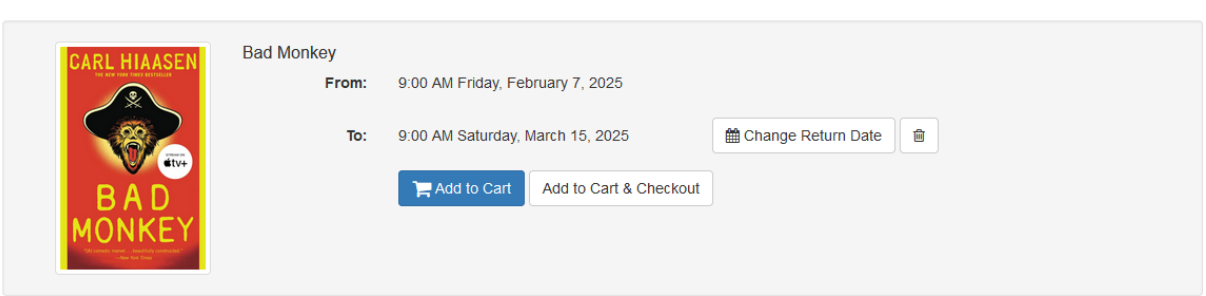
Our book club collection consists of multiple copies of titles that are stored in bags (kits) for use by book groups. There are 10 copies of a title in a kit. Book club groups may use the online LibCal booking system to browse our available titles and reserve their book kits ahead of time.

From our webpage, go to **Find It Here** and click **Book Your Kit!** (under **Book Discussion Kits**).

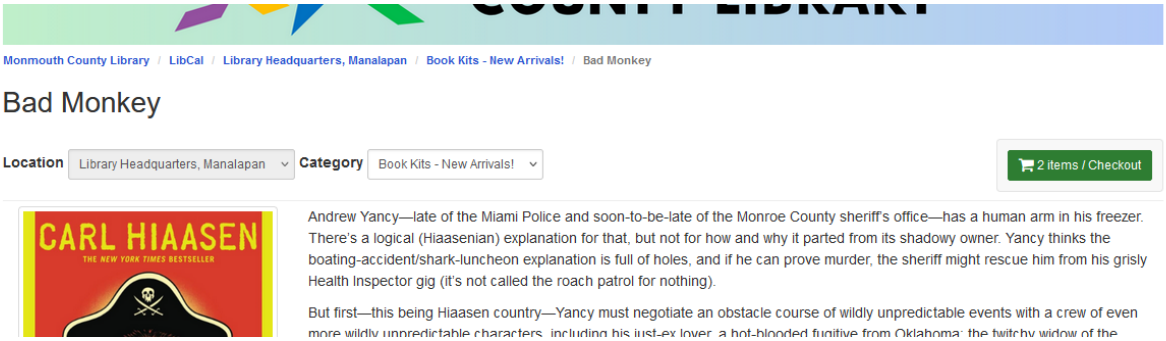
1. You can search for title or author, or browse by category—in addition to fiction and nonfiction groups, we've separated out our newest kits so you can browse those as well.



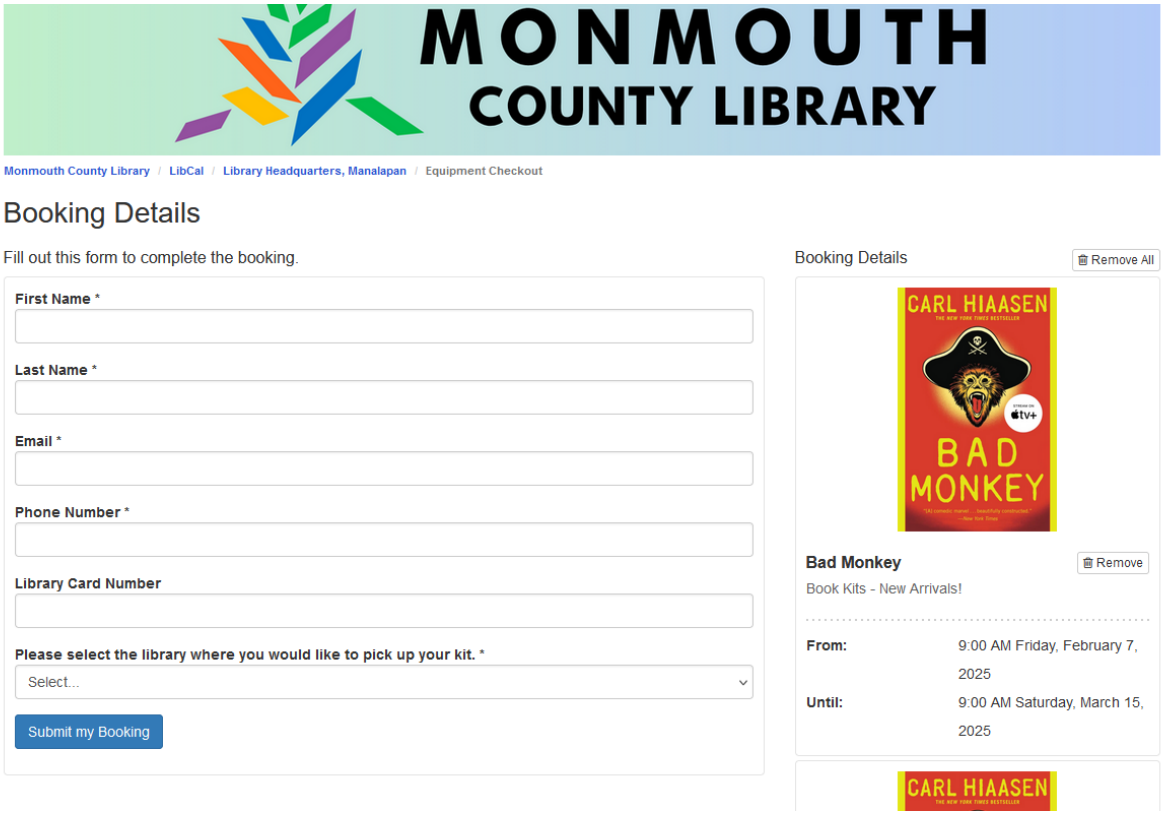
2. Click on a title you're interested in, and choose a date to pick up your book kit. The system will default to showing you the next 4 weeks, but you can pick a date further out if you'd like. **The pick up date you choose should be 5 weeks before the date of your group's book discussion.**
3. Click "Add to Cart."



4. Once you have finished making your selections for the date you chose, you can click the green "Checkout" button at the top of the page.



5. Fill out the required information and click "Submit My Booking." You will receive a confirmation email.



6. Library staff at chosen your pickup location will call you when your kit(s) are available for pickup.
